(b) to (d) AICTE monitors the quality in private technical institutions by conducting periodic inspections. It is verified through the Expert Committee Visits that the infrastructure, faculty and other resources available in the technical institutions are as per norms and standards laid down by AICTE.

While processing proposals for the academic year 2005-06, major emphasis has been laid on the requirement of faculty as per AICTE norms. This has resulted in sensitization of the institutions to the need for quality focus.

Further, the National Board of Accreditation (NBA) under AICTE accredits approved institutions after a systematic assessment against prescribed set of parameters. Some of the other initiatives include the Research and Institutional Development, Faculty Development and Networking Schemes.
